Developer Tools: Git • GitHub • Netlify • VS Code • Figma • AWS • Claude code • Cursor

Libraries: Framer Motion • GSAP • Recharts • PapaParse • SheetJS

Selected Software Engineering Projects

Finance Flow – Personal Finance SaaS

Live: **https://inandoutfinanceflow.netlify.app/**

GitHub: https://github.com/yourgirltech/FinanceFlow

Built a production-ready personal finance SaaS featuring authentication, multi-currency budgeting, CSV/Excel imports, analytics dashboards, and a custom financial insights engine. Designed modular business logic to support future database migration.

Style & Glitz — Luxury E-commerce Platform

Live: **https://styleandglitz.netlify.app/**

GitHub : https://github.com/yourgirltech/Styleandglitz

Built a full-stack luxury e-commerce platform with authentication, shopping cart, Wishlist, secure checkout, order management, an admin dashboard with product CRUD, media uploads, Supabase PostgreSQL, and Row Level Security (RLS). Also Integrated Pay stack payments via Supabase Edge Functions and designed a responsive luxury shopping experience.

Event Management Platform

Live: **abassandlive.com**

GitHub: https://github.com/yourgirltech/live-abass-wedding

Built a custom Responsive RSVP and guest management platform with Supabase PostgreSQL to manage guest records, RSVP data, and real-time admin dashboards. Developed secure RSVP workflows, attendance tracking, and automated EmailJS notifications.

Professional Experience

Freelance Frontend Software Engineer (Jan 2024 – Present)

Collaborated with clients to **design, build, and deploy** responsive React applications featuring authentication, payment workflows, and administrative dashboards using GitHub, Netlify, and AWS.

Frontend Developer Intern | Sunmence (June 2023 – January 2024)

Developed responsive React interfaces using HTML, CSS, JavaScript, and React. And Improved responsiveness, resolved frontend issues, and collaborated using Git.

Frontend Developer Apprentice | Sunmence (January 2023 – June 2023)

Built responsive web pages from UI designs while learning modern frontend workflows and version control.

Education

Bachelor of Science (B.Sc.) in accounting
Ladoke Akintola University of Technology (2026)
