Funmilola Showumi

Frontend Developer | +2349036423694 | Portfolio: https://funmilola-showumi-portfolio.netlify.app/ | GitHub : https://github.com/yourgirltech | LinkedIn : https://www.linkedin.com/in/funmilola-showumi-01b385284/

Professional Summary

Frontend Developer specializing in React, TypeScript, and modern web applications with hands-on experience building SaaS platforms, luxury e-commerce solutions, and database-driven business applications. Experienced in designing scalable user interfaces, integrating cloud services, authentication, payment systems, and administrative dashboards while delivering responsive, high-performance digital experiences.

Technical Skills:

Languages

JavaScript (ES6+) • TypeScript • HTML5 • CSS3 • Bootstrap

Frameworks & Libraries

React • React Router • Vite • Tailwind CSS • Framer Motion • GSAP

Tools

Git • GitHub • Netlify • VS Code • Figma

Backend and Database

Supa base • PostgreSQL • REST API's • Supa base Edge Function

Authentication & Payments

Supa base Authentication • Pay stack • Emailjs

Data and Visualization

Rechart • papaarse • Sheetjs

Featured Projects

Style & Glitz — Luxury E-commerce Platform

React • TypeScript • Tailwind CSS • Supa base • PostgreSQL • Pay stack • Framer Motion

https://styleandglitz.netlify.app/

Architected and developed a full-stack luxury e-commerce platform featuring customer authentication, shopping cart, Wishlist, secure checkout, and order management.

Built an administrative dashboard with product CRUD operations, secure media uploads, and role-based access control using Supa base Row Level Security (RLS).

Integrated Pay stack payment processing with secure server-side payment verification through Supa base Edge Functions and automated inventory updates.

Designed a responsive luxury shopping experience with cinematic product presentations, interactive product galleries, hover-to-video product cards, editorial layouts, and optimized mobile interactions.

Developed scalable PostgreSQL database architecture supporting customer accounts, orders, newsletter subscriptions, inventory management, and media storage.

Finance Flow – Personal Finance Platform

React • JavaScript • Tailwind CSS • Supa base Auth • Recharts

https://inandoutfinanceflow.netlify.app/

Built a personal finance platform using React, JavaScript, and Supa base.

Implemented secure authentication, multi-currency support, and reusable component architecture.

Designed an interactive dashboard with budgeting, transaction management, and financial insights.

Developed responsive UI optimized for desktop and mobile devices.

Luxury Wedding Platform & Guest Management System

React • JavaScript • Tailwind CSS • Supa base • PostgreSQL • Emails

abassandlive.com

Developed a bespoke luxury wedding platform featuring a fully custom RSVP and guest management system replacing third-party event services.

Built a database-driven RSVP workflow supporting guest registration, attendance tracking, plus-one management, and automated event administration.

Designed and implemented a secure administrative dashboard enabling organizers to monitor RSVP submissions, guest information, and attendance in real time.

Automated transactional email notifications using EmailJS, delivering RSVP confirmations to guests and instant submission alerts to event hosts.

Integrated Supabase PostgreSQL to manage guest records, RSVP data, and administrative workflows with responsive interfaces optimized for desktop and mobile devices.

Core Competencies

React & TypeScript Development • Component-Based Architecture • State Management • REST API Integration • Responsive Web Development • Authentication & Database Integration • Admin Dashboard Development • E-commerce Development • Performance Optimization • Accessibility & Cross-Browser Compatibility

Professional Experience

Freelance Frontend Developer

Self-Employed | Jan 2024 – Present

Designed and developed responsive React applications for personal brands, businesses, and client projects.

Built custom web applications featuring database integration, authentication, payment workflows, and administrative dashboards.

Managed projects from planning and UI implementation through deployment using GitHub and Netlify.

Collaborated with clients to gather requirements, implement feedback, and deliver production-ready websites.

Frontend Developer Intern | Sunmence

June 2023 – January 2024

Developed responsive user interfaces using HTML, CSS, JavaScript, and React.

Collaborated on client-facing web projects.

Improved website responsiveness and cross-browser compatibility.

Participated in debugging and frontend maintenance.

Worked within a collaborative development environment using Git.

Frontend Developer Apprentice | Sunmence

January 2023 – June 2023

Assisted in developing responsive websites.

Converted UI designs into functional web pages.

Learned modern frontend development workflows and version control.

Supported testing and quality assurance for web projects.

Education

Bachelor of Science (B.Sc.) in accounting
Ladoke Akintola University of Technology (LAUTECH)
Graduated: 2026
